SWAP

Token swaps on Coinswap are a simple way to trade one BEP-20 token for another via automated liquidity pools

LP Manager

Coinswap's liquidity pools allow users to provide liquidity through LP Manager and earn share of 0.17% on every trade.

Farm

Coinwap provides you with various yield farming pools. We incentivize many liquidity pairs by offering our LPs the option to stake their CS-LP (Coinswap Liquidity Provider) tokens in our farms.

Staking

At CSS Stake, users can stake their CSS tokens, and get rewarded in CSS and in other tokens i.e. LINK

Referral

What is better marketing than word-of-mouth! To thank you for bringing CSS to the community, we are glad to introduce the Referral solution in Coinswap incentivized Protocol.

Providing Liquidity

1 Choose „**LP Manager**” at the top menu and click „**Add Liquidity**”

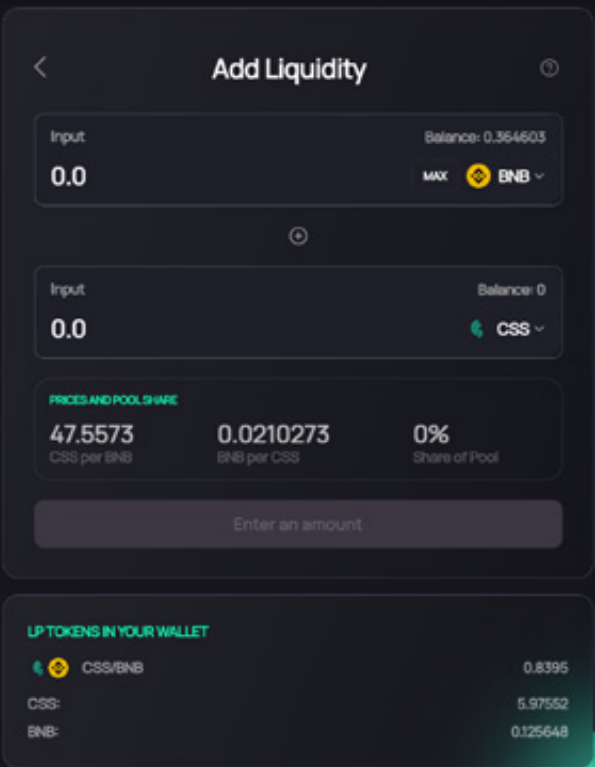

2 Choose two tokens you want to add liquidity to and enter the number of funds you want to add, then click “**Supply**”.

Note: If liquidity already exist, when you enter the amount of a token, the platform will calculate the corresponding amount of the other token based on the relative price of the token pair in that pool.

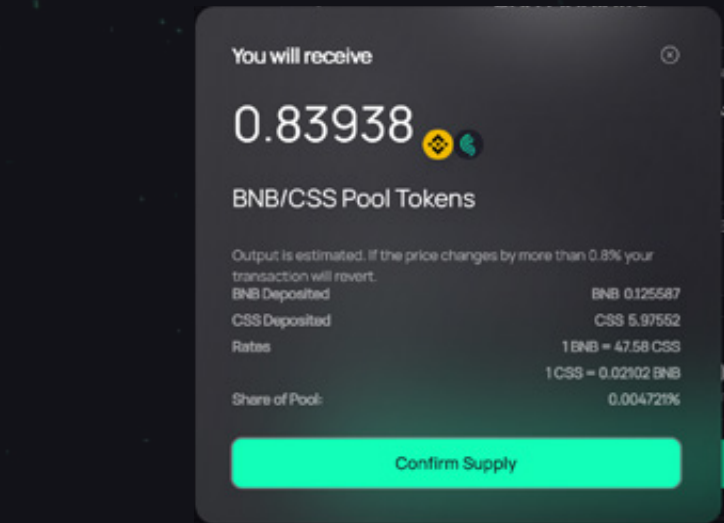

If you are the first liquidity provider, you have to choose the tokens ratio.

4 Adding liquidity requires confirmation from your wallet, press „**Confirm**” in the Metamask pop-up window.

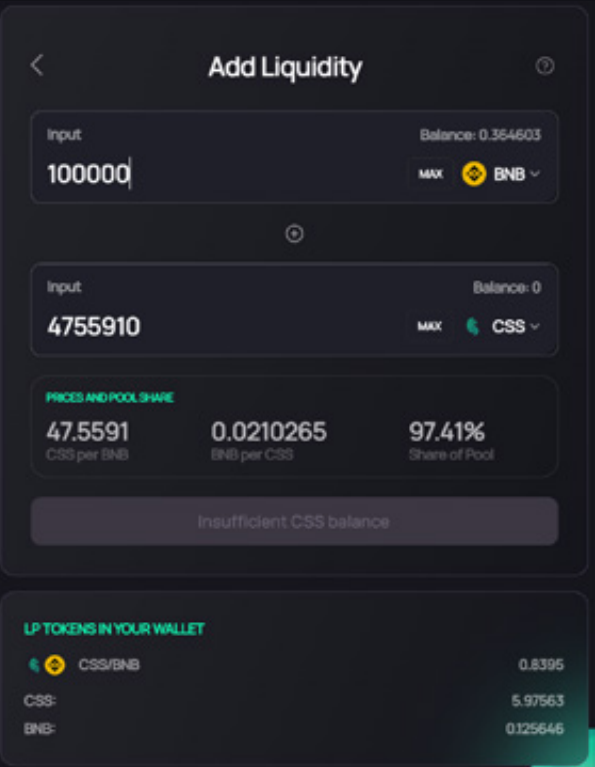

5 After successful operation, LP Tokens will be displayed at the bottom of LP manager menu

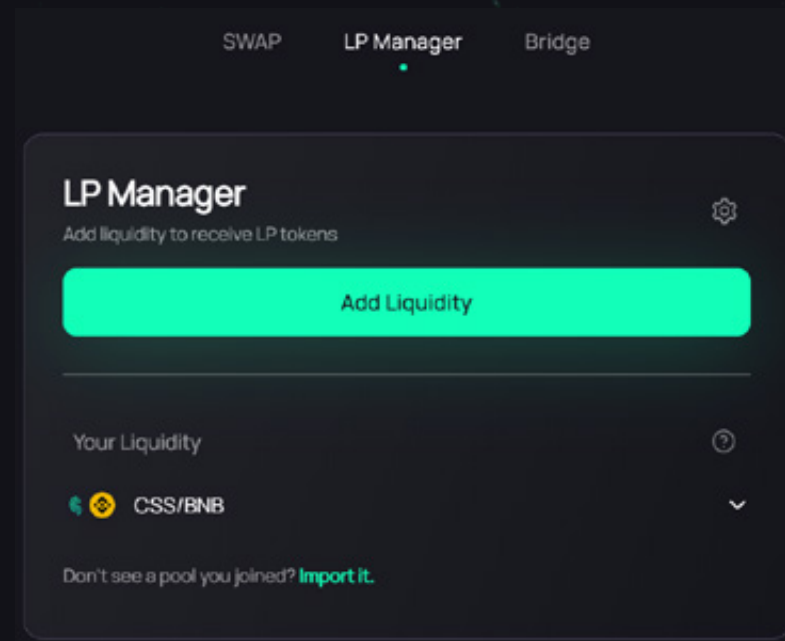

3 Press „**Confirm to supply**” in the confirmation window

Share of the pool indicates the **REWARDS PERCENTAGE** of transaction fee (0.17%)

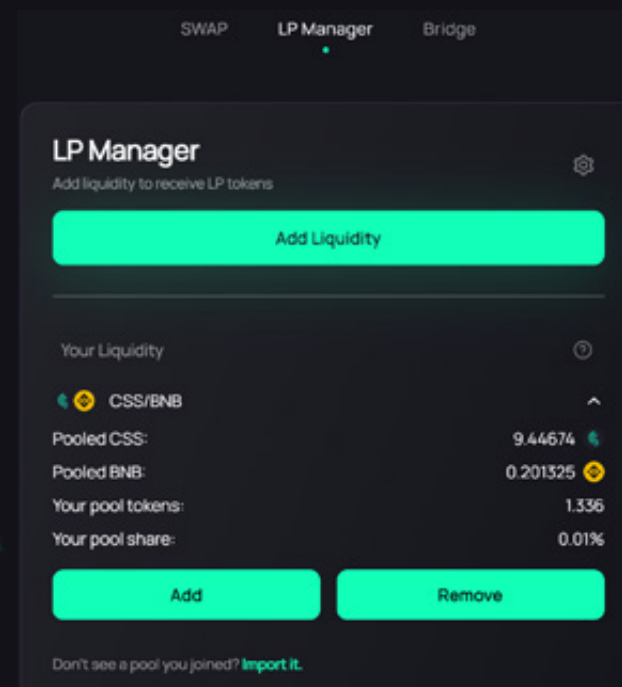

Note:
To maximise the **REWARDS** from transaction fees (0.17%), we need to have **THE HIGHEST PERCENTAGE SHARE** of the pool, i.e. 97.41%

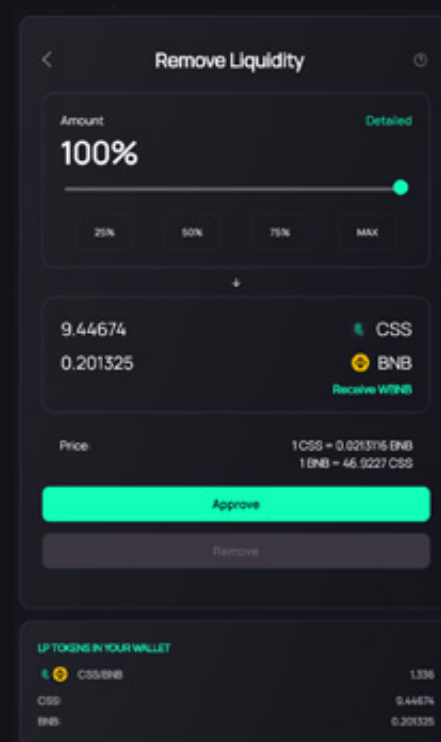

Removing Liquidity

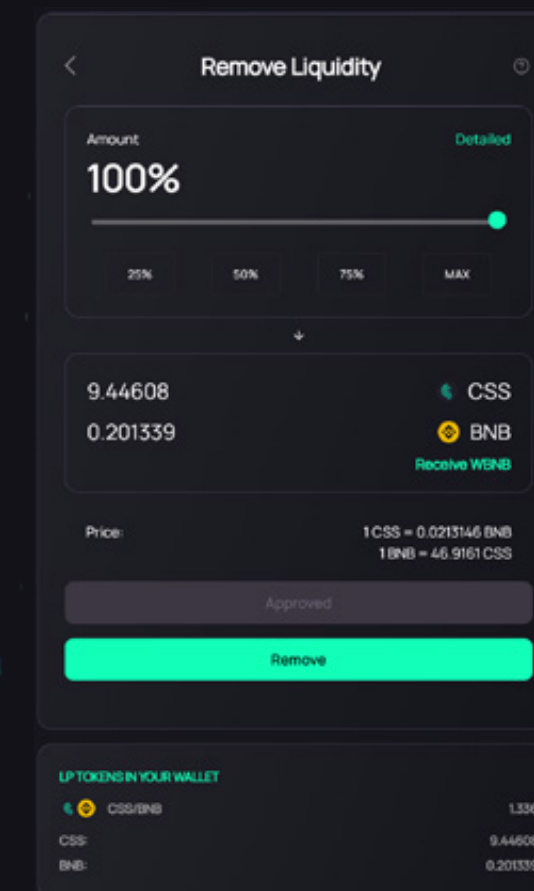

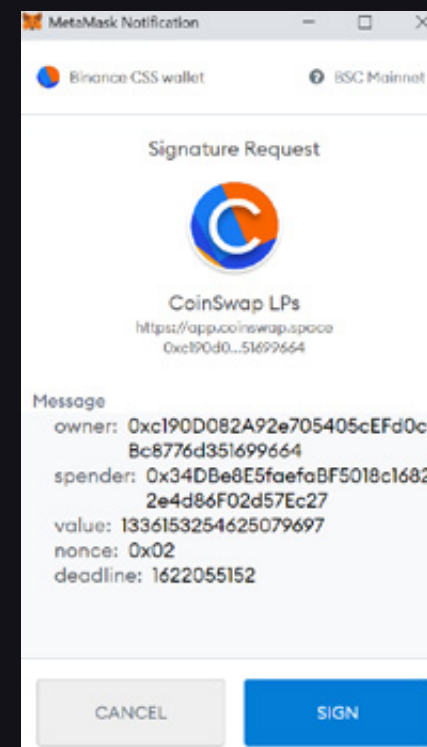

1 In LP Manager find Your Liquidity and press drop down to expand the menu

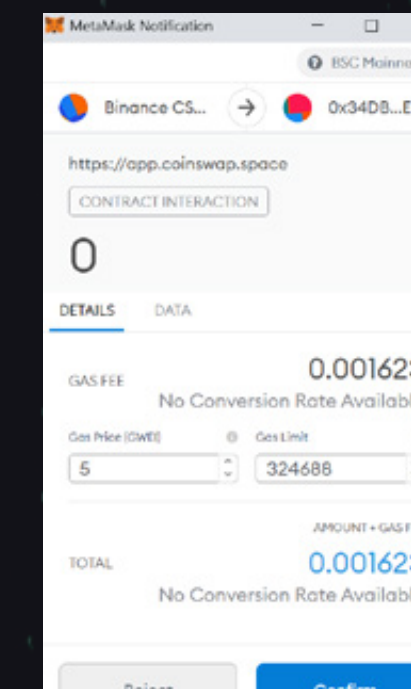

2 To remove the liquidity pool press „Remove”

3 Press „Approve”
This operation requires signature from your wallet, press „Sign” in the Metamask pop-up window.

4 Choose the amount of liquidity (from 0% to 100%) you want to remove, then press „Remove”.

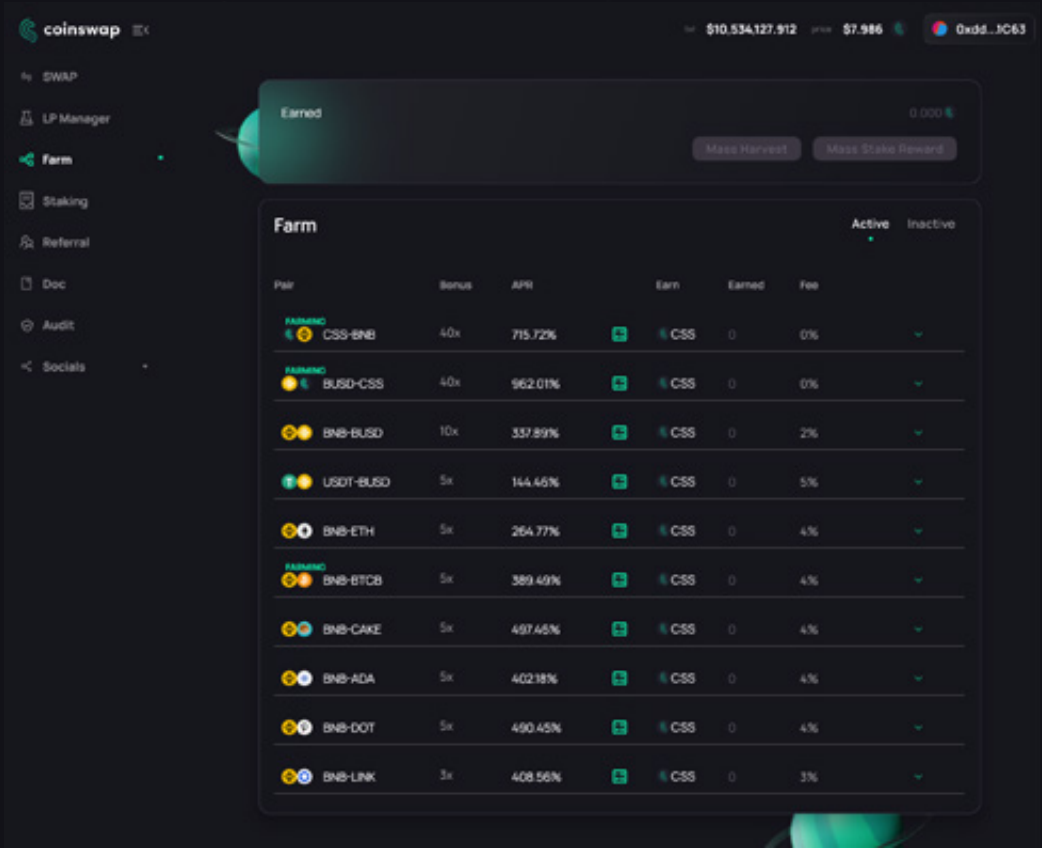

5 Press „Confirm” in a confirmation window. This operation requires confirmation from your wallet, press „Confirm” in the Metamask pop-up window

6 Liquidity is successfully removed, when at the top of the menu this message is displayed.
